Hello everyone –

Here are the comments from CH2M HILL. Please let us know if you have any questions before our call tomorrow.

Thank you.

Leslie,

Please see the attached comments for our call tomorrow morning.

Generally speaking, we are concerned with the lack of ground water investigation proposed for Phase 2. I went back through the files trying to get a better understanding of the history of the site and how we got to where we are today, some things are starting to come into focus but I am still struggling with the big picture of what is OU1 and what is OU2.

Let me know if you have any questions on the comments – I am done for the day but I will be in early tomorrow morning, you can email me any thoughts if you get a chance to look over them this afternoon.

Did you get my email from Friday asking about having CRA compile the boring logs for the site (I know you've been gone since last week so you probably have a backlog of emails)? It would be helpful to have those all in one place.

Maddie
